JMeter Project Steps:-

1. Take the Simple learn page and record Transaction By using Blaze meter and save the file.

2. Now open the JMeter click on File and click on open and select project file.

3. And add the simple controller and keep scripts in According to scenario.

4. And add Listeners View Results Tree and Aggregate Report.

5. And add Listeners Assertion Results.

6. For Each simple controller add Response Assertion and constant Timer and html report.

7. In constant Timer give how many milli seconds you want.

8. And save the test plan and run it.

9. You can see results in Results Tree.

10. You can also see the Aggregate Report.

11. In assertion report you can see the html failures.
